

NEW HOME OF THE JUVENILE COURT.

FORMER RESIDENCE OF GEN. ULYSSES S. GRANT, 203 I STREET NORTHWEST.

JUVENILE COURT TO GET NEW QUARTERS

Will Move Into Spacious Brick Residence at 203 I Street Northwest.

The Juvenile Court, which since its organization has occupied what court officials called an old, dilapidated building at 1316 P street northwest, is to have new and spacious quarters, according to an announcement of Judge J. Wilmer Latimer. The new quarters, in the four-story and basement brick residence at 203 I street northwest, were obtained through an appropriation by Congress of \$2,400 yearly for a new court building.

The house contains twenty-five unusually large rooms and three baths. The lot runs from I to K streets and is 48 feet wide and 315 feet deep. There is a stable on the K street front. The lot contains approximately 11,000 square feet, while the house covers about 1,000 square feet. The house is in excellent condition and but few improvements will be made for the occupancy of the court September 1.

On the first floor of the building, on one side, is a large room running the length of the building, to be used as the courtroom. On the other side there are three rooms, to be used as the judge's chambers, and two rooms for the clerk's office. The second floor is to be occupied by the assistant corporation counsel who prosecutes the cases in the Juvenile Court, and the probation officers. The third floor also is to be used by the probation officers.

Strong Room Is Planned.

Electric lights and additional toilets are to be installed in the building, while in the basement a strong room is to be constructed where adult prisoners can be detained. Children who are to be arraigned in court do not occupy cells, but are detained in one of the rooms occupied by a probation officer.

The house just selected for the new quarters was built by Senator R. W. J. Darnes, Stephen A. Douglas and Judge Joseph Bradley of the United States Supreme Court, residing in adjoining houses.

Cardinals, Cardinals and Cardinals resided in an adjoining house when they served as judges in this country.

Judge J. Wilmer Latimer yesterday appointed two new probation officers for the court. Miss Mary Darwin, a daughter of the late Mrs. Darwin, the first probation officer of the court, was appointed and will assume her position August 1. Miss Darwin has been engaged in social service work for the Associated Charities and lately has been in charge of the Georgetown station.

The other appointee is Eula Ross Grey, the first colored probation officer of the local Juvenile Court. She has been employed for the last three years as assistant preceptress at Howard University. Her appointment took effect immediately.

U. S. DEBTS HANG HEAVIER THAN STATE OBLIGATIONS

Bureau of Census Makes Comparison of Country's Financial Condition.

Debts of the national government hang heavier over American citizens than the debts of the states in which they live, according to a bulletin issued by the bureau of the census today on the national and state indebtedness between 1870 and 1912. In only a very small number of states does the per capita state debt amount to as much as one-half the per capita debt of the national government.

The total debt of the forty-eight state governments June 30, 1912, amounted to \$422,756,525. Of this total \$402,366,565 represented funded debt and \$19,422,956 represented floating debt. As an offsetting item against this total debt, the forty-eight states reported \$74,999,271 in sinking fund assets, leaving their debt, less sinking fund assets, \$347,757,254. The per capita debt for the forty-eight states amounted to \$2.57 June 30, 1912.

In contrast with the debt of the forty-eight state governments, the national government had a total debt June 30, 1912, of \$2,095,204,014. Of this total the funded debt amounted to \$2,549,522,723, while the floating debt amounted to \$545,681,291. Of the funded debt, the funded indebtedness amounted to \$2,549,522,723, while the special debt obligations amounted to \$1,777,152,168. The sinking fund assets or cash in the United States Treasury available for the payment of debt, consisting of accumulated trust funds, gold and silver in the Treasury, cash not only reduced the funded debt, but also reduced the floating debt. The national debt, less cash in the Treasury available for the payment of debt, amounted to only \$1,825,545,055, or a per capita debt of \$13.95.

The net debt of the national government represents three times the total net debt of the state governments. Of the total per capita debt of \$14.15 (national and state), the debt of the national government \$10.25, or 72 per cent, while the debt of the state governments amounts to \$3.90, or 28 per cent of the total.

Need of Good Citizens' Movement.

"But in this state the prime duty is a good citizen movement, a union movement, to save the state from the bi-partisan control of Messrs. Barnes and Murphy, precisely like the good citizen movement last year, when by union the city of New York was saved from the domination of Mr. Murphy. I hope with all my heart that all independent citizens whether progressives, republicans or democrats in their national affiliation will stand shoulder to shoulder for clean non-partisan government in the state at large this fall."

In his statement he said: "In this campaign I have a duty to the progressives of the nation and a duty also to the state of New York. In national politics, so far as I am able, I shall endeavor to strive for the success of the principles embodied in the progressive national platform. Therefore, I shall oppose the policies of the present administration, which I regard as deeply injurious alike to the honor and the interest of the American people."
